age

ok the rip is
a hole in
reality which leads
to the unsomun
Dimension. It is
where all legends
that are not
sounded are. So
that means

that the Legendarys
will keep coming
untill there aren
no more be cause
the unsomern world
is basicly a prison
So that means
we cant fight

the Legendarys.

We half to close
the rip first.

BUT... for our safety
the rip can only

be opened from

the outside and

closed from
the inside

so that means
we have to
find the rip
to go inside to
close the rip

world so what
are you waiting
for? LET'S GO!

backis (transport type
